

I wish to express my support for the radio broadcasting by K-LOVE. I am opposed to any action that would displace K-love from being broadcast within my community therefore I do not support any actions by Low Power FM stations that would displace K-LOVE. As a single parent and a Youth worker I Listen to K-LOVE and encourage my family and my youth group to listen to this station. The positive influences it promotes through music is reflected in the community by hearing messages that encourage moral and ethical living. Without K-LOVE we would lose the one positive radio station that promotes "Our Accountability" to one another which seems to be the one thing that society avoids.
